CLIENT ALERT

APRIL/2020

ENVIRONMENT – FEDERAL AGENCY: AMENDMENTS TO FEDERAL TECHNICAL REGISTRATION AND CONTROL AND INSPECTION FEE

Recently the Federal Environmental Agency ("IBAMA") published Ordinances No. 09/2020 and No. 10/2020 ("Ordinances") amending provisions about the Federal Technical Registration of Potentially Pollutant Activities and Users of Natural Resources ("CTF/APP") and the Environmental Control and Inspection Fee ("TCFA").

We highlight:

- **(i)** the beginning and end of the activities subject to the registration were defined;
- **(ii)** the validity of the Compliance Certificate can be canceled at any moment;
- **(iii)** the company holding the CTF/APP can request temporary suspension of the registration;
- **(iv)** new activities were added among the ones subject to CTF/APP;
- **(v)** the activities glossary was amended;
- **(vi)** enterprises' economic categories were amended;
- **(vii)** The TCFA, original from the activities mentioned on Federal Law No. 6,938 / 1981, will be issued by environmental body, under a special registration regime.

Ordinances came into effect on April 1, 2020.

Veirano's environmental team is highly experienced on the subject and is available to provide further clarification.
