ENVIRONMENTAL – ENERGY, FEDERAL DISTRICT: DISTRICT POLICY TO ENCOURAGE THE GENERATION AND USE OF ENERGY

On February 28, 2019, the Federal District published Law No. 6,274 ("Law"), providing guidelines for the District Policy to Encourage the Generation and Use of Solar, Wind and Biomass Energy and Cogeneration.

The Law aims to rationalize the consumption of electricity and other energy sources in the Federal District.

Among the Law's main purposes, we highlight:

- promotion of the use of renewable energy in urban and rural areas;
- reduction of the demand for electricity;
- allocation, in budgetary legislation, of financial resources for the costing of activities, programs and projects directed towards the objectives set forth in the Law.

Veirano's environmental team is highly experienced on the subject and is available to provide further clarification.
